11/1/72 Dear Ed, Thanks for all the goodies with your note of 10/27. I get a bit queasy when I see both Computers and Sprague. I've skimmed what you sent to know what if includes and will read with time. What you did not know is that the reverse of the unattributed review of the Turner/Hinkle/Asinof/ Joel Kaplan "turth" (because joel says it is) also interests. I knowx The stuffed shirt Alvin Kerr and the overstuffed shirt Jim Beard (what didn't happen to my little car the last time att 400 of his pounds settled into it!) from our cooking forays...PW pieces good to have...It is a blessing the Sup Ct. would not take Nichols' case, alas...hope Sirhan finally has good lawyers. This is to me a new team. Last I'd heard was Isaacs. I have some relevant stuff but with the predator nots I've been sitting on it, feeling silence better than misuse at this point. Again thanks, best,
